

SmartCity360°

THE GATEWAY TO INNOVATION

MEET PROFESSIONALS AND SPECIALISTS

3RD ANNUAL SMART CITY 360° SUMMIT

DRAFT AGENDA

29 NOVEMBER — 1 DECEMBER 2017 | HELSINKI - FINLAND

OVERVIEW OF 3RD ANNUAL SMART CITY 360° SUMMIT

The 3rd annual Smart City 360° Summit is the first Nordic Smart Cities event that will address multidisciplinary scientific collaboration to solve complex societal, technological and economic problems of Smart Cities, regions and large infrastructures.

This first event will create a lasting platform for an exchange of experiences and best practices between international Smart City innovation programs - development strategies and initiatives with the participation of the global research community. Its aim is to identify areas of common interests for future implementations and partnerships.

Northern European countries are widely recognized as global leaders in ICT and social innovation. They share common values, high living standards and openness but, with a strong ethical focus on environmental and social sustainability. Nordic countries have among the highest educated people in the world with a strong scientific base providing a solid foundation for a knowledge and innovation-based economy. The Summit will open thought provoking dialog helping to consolidate Smart Cities innovation efforts, sharing experiences and delivering new partnerships and projects. It will support multidisciplinary dialog by discussing how societal values of Nordic countries could be translated into Smart Cities policies and implementation strategies based on multidisciplinary scientific cooperation and citizens participation. The Smart Cities public services, sustainability and resilience, large infrastructures, environment and transport systems, ICT are among the key topics of the summit.

The Summit goes beyond discussion, an exchange of experiences, views and best practices. The agenda will include sessions: proven initiatives; innovation and collaboration.

PARTNERS OF PAST SMARTCITY 360° SUMMITS

EAI International Workshop on Smart City Experimental and Digital Business Development Platforms

EAI International Workshop on Smart Cities as Socio-Technical Systems

EAI International Workshop on Smart Cities and Smart Society

& more

SUMMIT: DAY 1 – 29 NOVEMBER 2017

Smart Cities Innovation Policies

Smart Cities innovation programs: upcoming challenges for policy-makers, cities and regions

- European and regional innovation policies and priorities
- State of the art
- Consolidation of efforts
- Role of research
- Multidisciplinary research agenda and international cooperation

9:00 – 10:30 Keynote speakers

- Smart Cities policies. European and national programs and priorities. State of the art.

10:30 – 11:00 Coffee Break

11:00 – 12:30 Keynote speakers

- Smart Cities research. Challenges and cooperation opportunities

12:30 – 13:30 Lunch

13:30 – 15:00 Panel discussion

Smart Cities innovation worldwide. Best practices, priorities and research challenges

- Smart Cities development programs: best practices, priorities and future challenges
- International synergies, collaboration and partnership
- Research challenges and cooperation

15:00 – 15:30 Coffee Break

15:30 – 17:00 Panel discussion

- The main challenges and complex problems of smart cities and regions
- Research challenges and topics
- Synergies between competencies of cities and regions
- The role of Cities Labs

SUMMIT: DAY 2 – 30 NOVEMBER 2017

Smart Cities and complex systemic challenges of European cities and regions

9:00 – 10:30 Keynote speakers

- Smart Cities, e-government and public e-services
- Smart Arctic cities, communities and infrastructures

10:30 – 11:00 Coffee Break

11:00 – 12:30 Keynote speakers

- Resilient and sustainable smart cities
- Cross borders smart cities
- Cities Labs cooperation

12:30 – 13:30 Lunch

13:30 – 15:00 Afternoon session

- Integration and social inclusiveness
- Smart regions
- Smart Cities innovation ecosystem and cities as a Lab
- Cities data analytics Lab
- Smart public health
- Social and economic aspects of ITS
- Smart and clean environment

15:00 – 15:30 Coffee Break

15:30 – 17:00 Panel discussion

- Common challenges, interdependencies and complementarities between different domains, clusters and ecosystems
- Socio-techno-economic systematic problems to be addressed by research

9:00 - 17:00 Technology track

- Presentations of visions and solutions from high level technology experts representing industry

Innovation day

1. panel: PRIVATE FUNDING

- What are investors looking for in Startups?
- Which startups criteria are the most important?
- Investors vs startups cooperation and challenges
- Do startups focusing on Smart Cities have some specifics?
- What are the most successful Smart Cities startups and how investors helped them to increase their business?

2. panel: PUBLIC FUNDING

- What is the actual EU legislation and what kind of legislation changes or improvements to support Smart Cities projects we can expect?
- How can EC support and boost Smart Cities Startups in Europe? (Horizon 2020, Digital Agenda for Europe, Structural funds, European Investment Fund, European Investment Bank, EIP-SCC...)
- Smart Cities and startups in Scandinavia (local regulation and good examples)
- Smart Cities funding worldwide: In what aspect does the EU fall behind in comparison with Asia or USA?

3. panel: EAI360 PITCHING EVENT

EAI is supporting researchers, innovative startups and new talents. We would like to present our EAI360 Acceleration program and introduce the most successful EAI360 projects. Join our pitching event and help us choose the best Smart City project.

- Pitching event : Meet the most successful EAI360 projects focusing on Smart Cities solutions. Enjoy our EAI Acceleration program pitching event!

PLEASE DO NOT HESITATE TO PROPOSE YOUR OWN TOPIC!
